Vera C. Rubin Observatory discover unprecedented objects in the sky

September 13, 2021

Astronomers using the Rubin Observatory have imaged an object that we have never observed before. The new observation can't be cataloged since it's entirely new for humanity. Sape sumquo bea conesequam voluptatia viditatiate plictorum dit eum conectate consed quia veri suscitas...

Read more

An unsolved mystery in astronomy has become even more puzzling. The source of Fast Radio Bursts (FRBs) — sudden bursts of radio waves lasting a few thousandths of a second — has remained... **Read more**
